

POKER TRAINING

Poker, in particular, Texas Hold 'Em is the fastest growing game, in the UK, and indeed the world today. The basics of the game can be learned in a couple of hours, but a lifetime of playing will not guarantee to make you a great player. To gain the edge on other players an in-depth knowledge of the game and its associated strategies is necessary. Casino- logistics offers courses at all levels, from the complete beginner to players wishing to further their knowledge of the game. We also offer courses in poker dealing skills. These courses are designed to give players, and individuals, the skills necessary to deal cash game or tournament tables.

Courses last from two days to two weeks, depending on your level of experience, and the course chosen. Courses can be held at our training centre, or at a location of your choice (we will even train you in your home). Our trainers have many years experience in dealing and teaching Texas Hold 'Em and are regularly involved in tournament play and the organisation of tournaments.

Texas Hold 'Em Players Course

Our players course covers all aspects of the game taking the student from the basics to a level of experience

Our professional **Poker Dealing Course** will provide the individual with a complete training in all necessary aspects of the game including: handling cards, game procedures, game protection, and dealing techniques.
